Some ProShares ETFs seek daily investment results that correspond, before fees and expenses, to a multiple (e.g., 2x or -2x) of the daily performance of its underlying benchmark (the "Daily Target"). While the Funds have a daily investment objective, you may hold a Fund's shares for longer than one day if you believe it is consistent with your goals and risk tolerance. For any holding period other than a day, your return may be higher or lower than the Daily Target. These differences may be significant. Smaller index gains/losses and higher index volatility contribute to returns worse than the Daily Target. Larger index gains/losses and lower index volatility contribute to returns better than the Daily Target. The more extreme these factors are, the more they occur together, and the longer your holding period while these factors apply, the more your return will tend to deviate. Investors should consider periodically monitoring their geared fund investments in light of their goals and risk tolerance.

Investing involves risk, including the possible loss of principal. ProShares ETFs are generally non-diversified and each entails certain risks, which may include risk associated with the use of derivatives (swap agreements, futures contracts and similar instruments), imperfect benchmark correlation, leverage and market price variance, all of which can increase volatility and decrease performance. There is no guarantee any ProShares ETF will achieve its investment objective. ProShares are not suitable for all investors.

Carefully consider the investment objectives, risks, charges and expenses of ProShares before investing. This and other information can be found in their summary and full prospectuses. Read them carefully before investing. Separate ProShares Trust II prospectuses are available for Volatility, Commodity and Currency ETFs. Obtain prospectuses at ProShares.com.

ProShares Volatility, Commodity and Currency ETFs are not investment companies regulated under the Investment Company Act of 1940 and are not afforded its protections. Investing in these ETFs involves significant risks. Investors could lose all or substantially all of their investment. ProShares Trust II (the issuer) has filed registration statements (including prospectuses) with the SEC for the offerings to which this communication relates. Before you invest, you should read the prospectuses in those registration statements and other documents the issuer has filed with the SEC for more complete information about the issuer and these offerings. You may get these documents for free by visiting EDGAR on the SEC website at sec.gov. Alternatively, the issuer will arrange to send you the prospectuses if you request them by calling toll-free 866-PRO-5125, or visit ProShares.com. These ETFs do not invest directly in commodities or currencies. These funds generate a K-1 tax form.

^{*}Before fees and expenses. **Not regulated by the Investment Company Act of 1940. These funds generate a K-1 tax form. †The fund is actively managed.
